

Here's what people are saying about Transformational Movement with Roger Sams

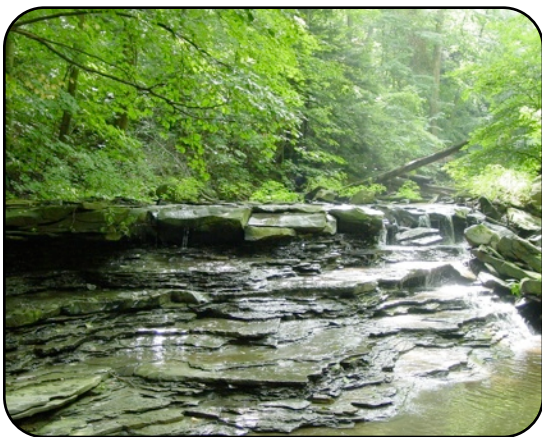

My connection with you and your work is strong. I have held a sacred story in my heart and the time has come to share it with you. When I met you in April of 2005, my heart was heavy with concern for my son who was scheduled to leave for Iraq. I came to the dance weekend having been unable to let go of my fear for him. In the sacred darkness of the dance I found myself cradling someone as I moved around the room. I danced with this being in my arms for what seemed like a long time, then was directed by something deep within me to move to a specific place in the room. Though I couldn't see, I could feel light coming from that space and was moved to offer up my bundle. As I did, light flowed through and I knew. The being I had been cradling was my son. The place of light was God. The giving up was turning my son and my fears over to God. My son came home safely that summer and has returned to Iraq for a second tour. When I have let myself doubt, I remember the light and come into peace. Thank you, Roger, more than I can say, for giving me space to touch the Infinite.

As a friend and spiritual teacher you inspire me to grow always and in every way. Your example of spiritual growth and lightness for all that surround you is humbling. I feel blessed that you are in my life.

Often I hear your words in my heart whispering, "Don't let anyone take your dance." It is with this that I remember myself and dance my dance...of freedom, love, life and light. Thank you, Roger, for holding safe & sacred space for expression, healing and transformation.

I AM GRATEFUL FOR YOU, ROGER. YOU HAVE PROVIDED ME WITH LOVE I HAVE NEVER KNOWN, AS WELL AS SHOWN ME MY INNER COURAGE TO ACCEPT ALL THE GLORY THAT IS ME.
